You have a checkbox, enabled by default, called **Load settings from server**. If set to **On**, it load the configurations you have saved on previous sessions, from the server. If it is switched **Off**, you will load your settings from your *device* locally.

Language selection is also available from the start under Language drop down list.

## Entering and viewing contracts on QST Lite

After you log in, you are automatically redirected to the **Trading** section. The **Trading** module allows one to follow real-time quotes for a fixed set of instruments. This selection of products cannot be altered in any way (e.g. by adding or removing quotes). If you are looking for a module that allows such customizations, as well as possessing other extended capabilities, please use a **Custom Quote** frame instead.

The screenshot displays the Maybank Investment Bank trading interface. The top navigation bar includes Home, Trading, Data Pages, Custom Quotes, News, Order Entry, Orders & Positions, Account Information, Order Activity Log, and Tools. The main content area shows a table of futures contracts under the 'Bursa' section. The table is organized into sections for different instruments: KLI - FTSE Bursa Malaysia KLCI, FGLD - BMD Gold, MGS - 5-Year Malaysian Government Securities, MPC - Crude Palm Oil, and UPO - USD Crude Palm Oil. Each section lists contracts for various months (e.g., DEC 18, JAN 19, MAR 19, JUN 19, APR 19) with columns for BID, ASK, LAST, and CHG. The table also includes a 'MONTHS' column with a dropdown arrow and a 'Properties' link.

## Quotes Monitor in QST Lite

### Tabs

Basically, each Quotes Monitor consists of one or more tables (if more are present, use the tabs at the top to switch between tables). You can Rename or Delete a table by right clicking on the specified tab.

### Rows

Each row will either:

- be empty,
- host a title or
- display information (most likely a quote).

For example, click on an empty Contract cell to start typing in a contract, such as ZC, select the desired trading month, then hit Enter to submit. From here you have access for Charts, Options Chain, Price Ladder, Contract Details, Request Quote and Order Entry Actions for each contract. Right clicking on contract's name offers you a set of actions for this specific Contract. Left and Right Click on the Last Price will offer you the possibility to Trade, Order Ticket Dialog will open.

An order can be placed from the Quotes Monitor frame by left or right-clicking one of the Last / Bid / Ask columns (tip: use these columns to place orders from within any frame that shows them).

## Columns

Columns divide each row into cells that classify the information. You can edit the visible rows and order from Columns Tab Section.

The screenshot shows a software interface with a top navigation bar containing 'Home', 'Trading', 'Data Pages', 'Custom Quotes', and 'News'. Below this, a sub-panel is open with 'Custom Quotes' selected, and the 'Columns' tab is active. The 'Columns' tab is divided into two main sections: 'Available Columns' on the left and 'Displayed Columns' on the right. The 'Available Columns' section is currently empty. The 'Displayed Columns' section contains a list of column names, each preceded by a vertical bar icon: Contract, Contract Description, Last, Net Change, Net Change Percent, High, Low, Bid, Ask, Open, Close, Volume, Open Interest, Prev. Settlement, Time, and Settlement. Between the two sections are four arrow icons: a double right arrow, a single right arrow, a single left arrow, and a double left arrow. At the bottom left of the panel is a blue 'Apply' button.

## Properties

The Custom Quotes Properties dialog provides access to change any Custom Quotes setting.

## Symbol Search in QST Lite

The Contract Lookup Dialog is used to obtain a contract or a list of contracts and use them in a module. The functionality extends beyond the scope of futures only (it concerns other instruments as well).

The first thing you need to decide when you are starting to search for a symbol, is the Contract type. Contract Lookup Dialog looks different for each Contract Type. Using the Symbol Search field, you can search for a contract by its name or by the symbol.

You can also search for different sessions: Pit-Traded, Composite and Electronic.

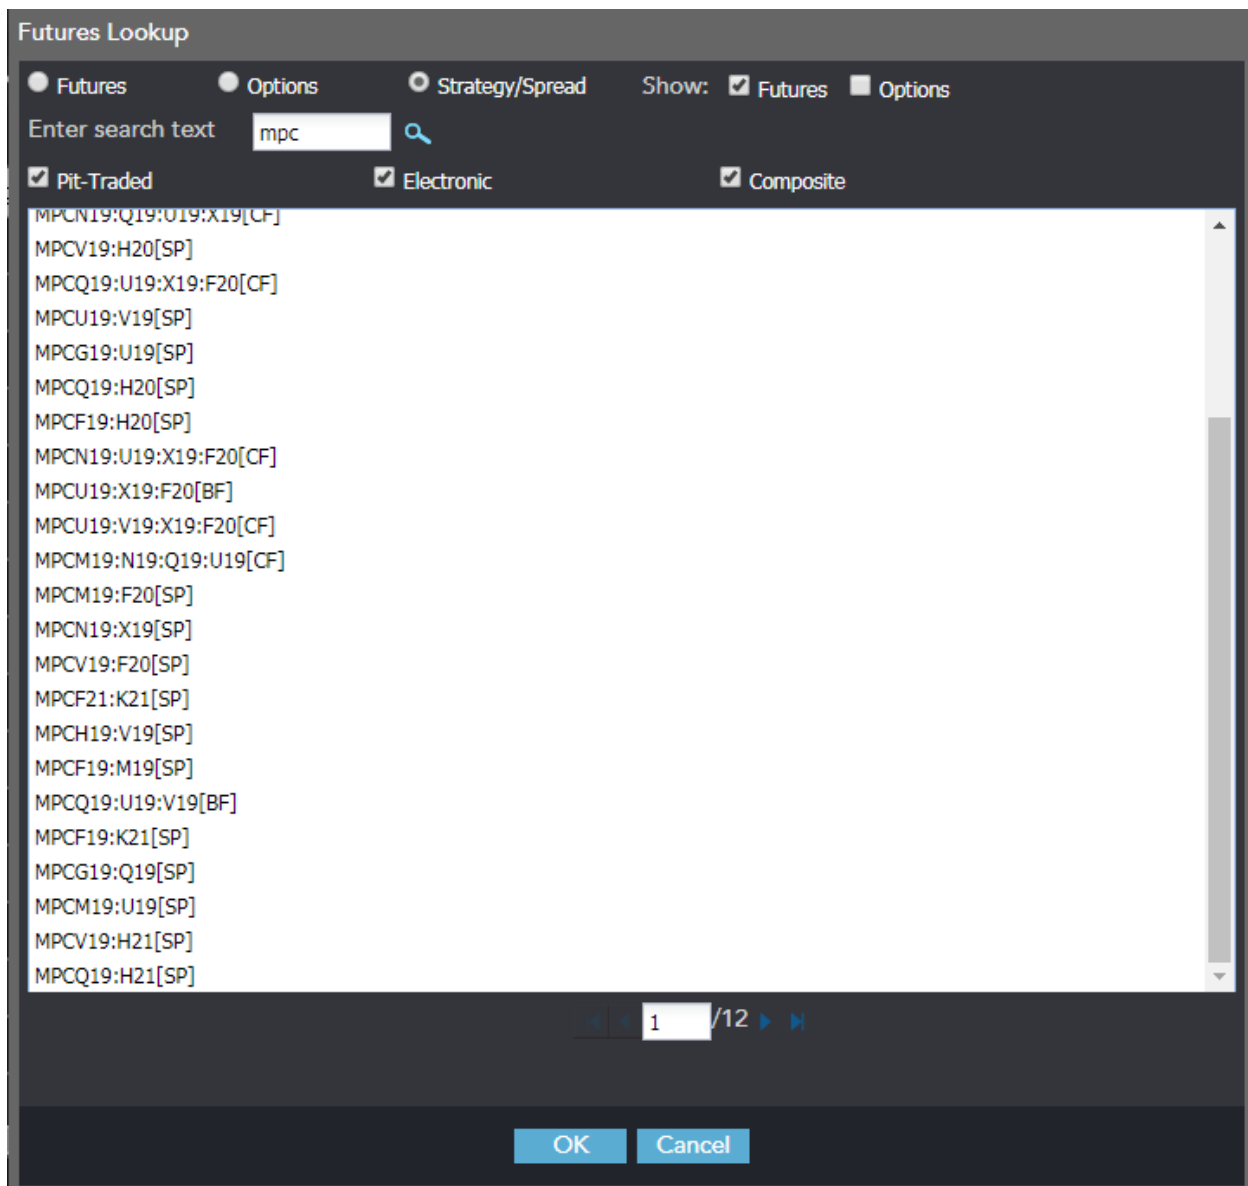

Applying the filters presented above will help you to reduce the number of the contracts in the Filtered Contracts list and will help you to find the exact symbol / contract you are searching for.

One of the last steps is to select the symbol from the Filtered Contracts list and choose the Month and the Year from the Available Month and Year fields. The available months are shown with bolded letters.

## Searching For Strategies

In order to search for strategies, you need to follow these steps:

1. Select Strategies for Contract type.
2. In the Strategies that start with: field, type the symbol of the first contract in strategy.
3. Check / uncheck the following filters, depending on your needs: Show Futures Strategies and / or Options Strategies.
4. Press the Get Strategies button or hit Enter on your keyboard.
5. Select the strategies you need from the left side of the dialog, hit Ok and the contracts will be added to your current frame.

## Charts in QST Lite

In order to enter the Charts section, press the Chart tab.

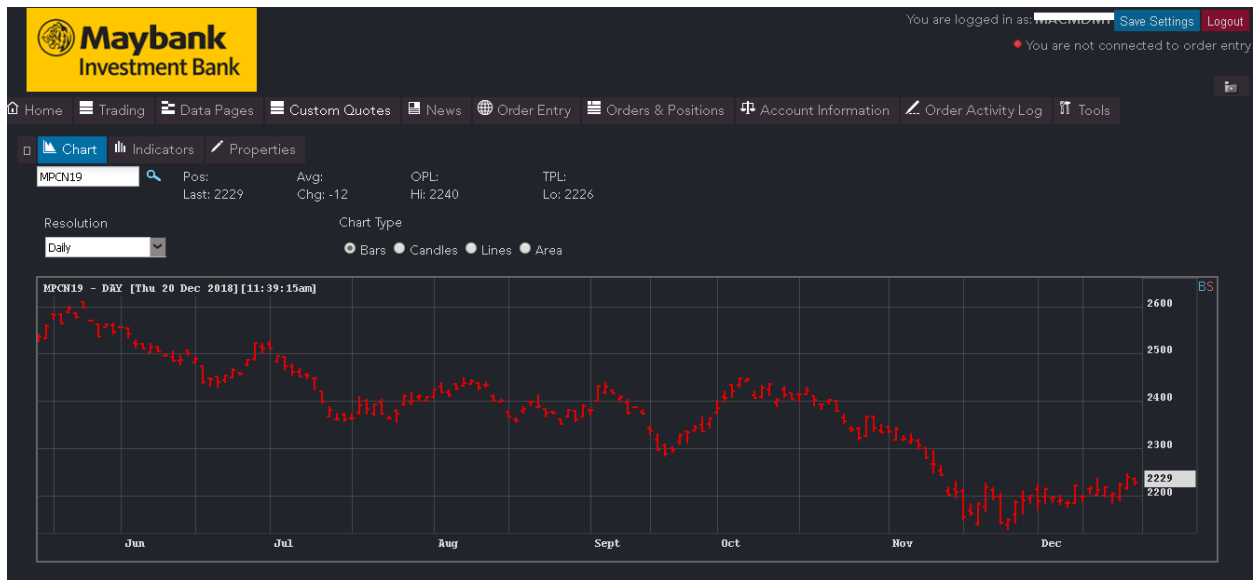

A chart displays historical data for futures, options and spreads in a graphical format. There are various ways in which the data may be represented. Here is an example of a chart:

The screenshot displays the Maybank Investment Bank QST Lite interface. At the top, the Maybank logo is visible. Below it, a navigation bar includes Home, Trading, Data Pages, Custom Quotes (selected), and News. Under the Custom Quotes tab, there are options for Columns and Properties. A table titled 'Table 1' shows contract data. A context menu is open over the 'MPCN19' row, with the 'Chart' option highlighted.

## News in QST Lite

In the "News" module there are three sections:

1. In the top of the news frame there are all the news grouped by categories. Every category is in a new tab. The news are decreasingly ordered by time - the last ones are in the top. The order can be changed by single click on the table header named "Timestamp".
2. The second section - in the center of the news frame - contains the content of the selected news.
3. The third section - in the bottom of the news frame - contains a list of all the news, the same news that are in the first section, but these are not grouped by categories on different tabs. These are also ordered by time - the latest ones are in the top.

The screenshot displays the Maybank Investment Bank News module. The top navigation bar includes 'Home', 'Trading', 'Data Pages', 'Custom Quotes', 'News', 'Order Entry', 'Orders & Positions', 'Account Information', 'Order Activity Log', and 'Tools'. The 'News' section is active, showing a 'Categories' tabbed interface with options like GENERAL, ENERGY, FINANCIAL, METALS, STOCKS, ECONOMY, COMMENTS, GRAIN, CURRENCY, FOOD, SUGAR, WEATHER, COCOA, and OILS. The 'GENERAL, GRAIN' category is selected, displaying a table of news items:

## Setting up Alarms in QST Lite

Alarms notify the user when a certain price limit is reached. If the last price for the selected contract has reached the price value set for the alarm or is in the range described by the condition set for the alarm, the alarm will be triggered. You can write the contract by typing or choose it from Symbol Search by single click on the button from the right of contract field. Then, enter the value of the price for the alarm. Use the additional checkboxes to customize the alarm's condition. You can Add/Edit/Remove Alarms in the Alarm Tab, under Tools Tab.

The screenshot displays the Maybank Investment Bank QST Lite interface. The top navigation bar includes the Maybank logo, user login information, and various menu items like Home, Trading, Data Pages, Custom Quotes, News, Order Entry, Orders & Positions, Account Information, and Order Activity Log. The 'Alarms' tab is selected, and the 'Tools' button is highlighted. The main area shows a table with columns for Enabled, Contract, Condition, Price, and Message. An 'Add Alarm' dialog box is open, allowing the user to configure an alarm. The dialog includes fields for Message, Contract (MPCH19), and Trigger when last trade is (bigger, 2250). Below the dialog, there are buttons for Add Alarm, Remove Alarm, Edit Alarm, Enable all alarms, Disable all alarms, Enable, Disable, and Remove all alarms. The footer contains the copyright notice: Copyright © 2010 - 2018 Computer Voice Systems, Inc. All rights reserved.

## Order Entry in QST Lite Order Entry Login options

The screenshot displays the Maybank Investment Bank Order Entry interface. At the top left is the Maybank logo. The navigation bar includes Home, Trading, Data Pages, Custom Quotes, News, Order Entry (highlighted), Orders & Positions, and Account Information. Below the navigation bar, there are 'Login' and 'Properties' buttons. The main content area features a login form titled 'Provider: QOR' with the following fields: Username, Password, and Account (a dropdown menu). Below these fields are two checkboxes: 'Remember my Password' and 'Connect at Startup'. A red error message box at the bottom of the form reads 'Disconnected from order entry server'. A blue 'Connect' button is positioned at the bottom of the form. The footer contains the copyright notice: 'Copyright © 2010 - 2018 Computer Voice Systems, Inc. All rights reserved.'

The screenshot shows the Maybank Investment Bank trading platform. The top navigation bar includes Home, Trading, Data Pages, Custom Quotes, News, and Order Entry. Below this, there are buttons for Login and Properties. The 'Orders' section is active, displaying a dropdown menu for 'When Placing an Order' set to 'Preview the order'. Three checkboxes are checked: 'Show confirmation when canceling an order', 'Show confirmation for Cancel/Replace', and 'Show warning if order will be immediately filled'. An 'Apply' button is located at the bottom left of the 'Orders' section.

### Order Ticket in QST Lite

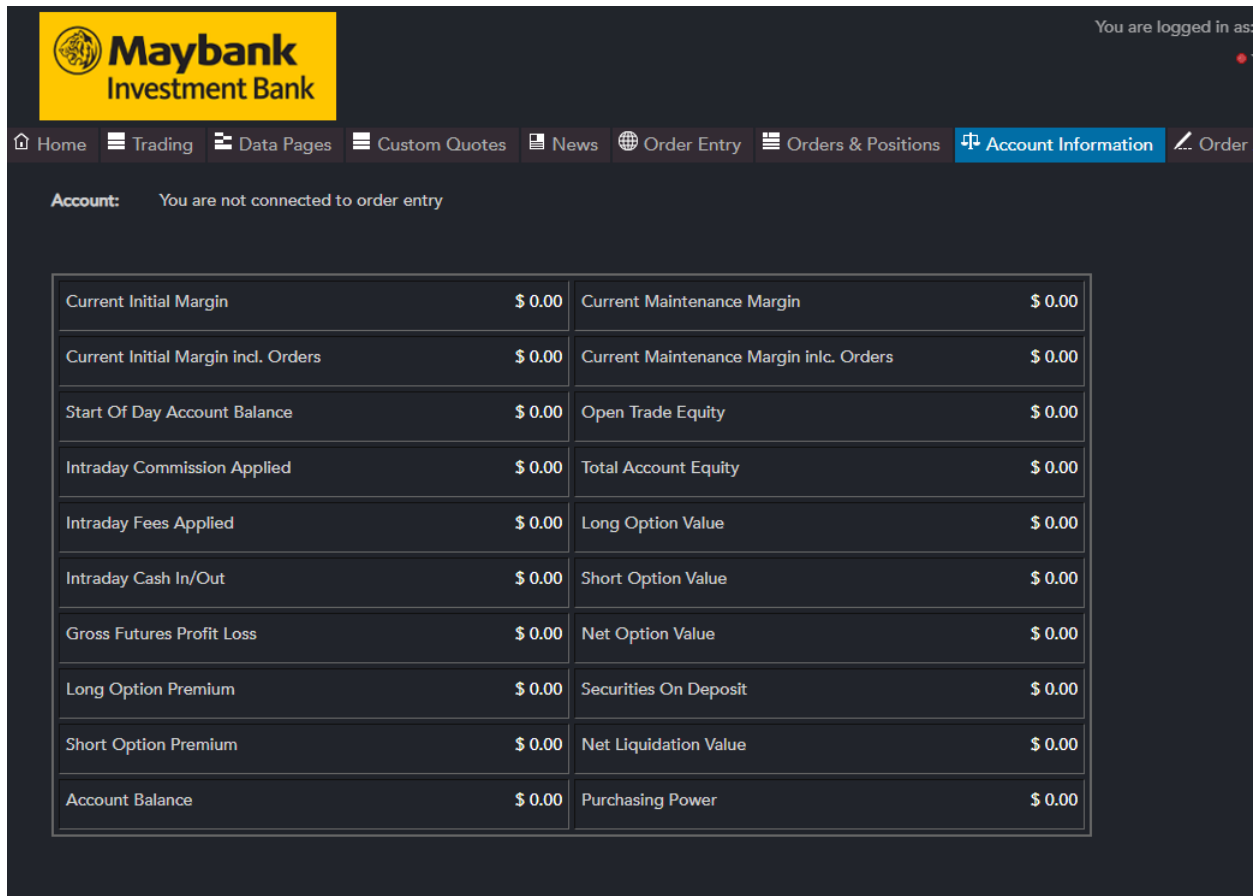

This is the form that allows the user to place orders. Orders can be placed by editing the required fields. The "Quick Entry" bar can be used to edit the fields. To place an order using the "Quick Entry" bar, simply type the account, B or S (Buy or Sell), the quantity, the contract symbol, the strike value, the price and type of the order.

The 'Place Order' form displays a confirmation dialog. At the top, it asks 'Are you sure you want to place the following order?'. The form fields are as follows:

- Account:** 16021@PTS - [TC16] BITEA, ADRIAN
- Order:** Buy 1 ESH18 @2834.50
- Last Tick:** ESH18 2834.75
